Wichita State University | 2007

EXPERIENCE

SENIOR BILLING AND ACCOUNTING SPECIALIST
Aperture Fusion Fiber Construction — January 2015-April 2018

- Independently worked utilizing Excel to make financial benefit analysis predictions about potential projects.
- Analyzed, streamlined and resolved billing issues; including, but not limited to, building an app with a coworker to help resolved billing inconsistencies and time issues with contractors.
- Reconciling accounts payable and receivables in QuickBooks.

QUALITY ONCOLOGY PRACTICE INITIATIVE COORDINATOR
Charleston Area Medical Center — July 2010 - January 2015, March 2015 - May 2015

- Gathered, documented, analyzed, and evaluated clinical data sets using QOPI's benchmarks and database.
- Presented reports to internal and external partners to become one of the first QOPI Certified Cancer Centers in the world.
- Received one of three 2014 CAMC Quality Awards (out of every department in four hospital campuses) with an emphasis on most physician involvement, while working with cross functional teams.
- Chair of the Safety and Grievance Committee.

PROJECTS

KANSAS CITY MICROBREWERIES | LINK

Role: Used social data mining and web scraping to help format and design the page in html/css and Python used Google API Calls to gather review ratings.
